Re: Centreport Land

Dear Councillor

I am writing to you on behalf of the Architectural Centre, a group which represents both professional and non-professionals interested in architecture and design, and in the promotion of good design in Wellington.

We have written to you recently (16th August 2005) expressing our concern about the limited safeguards which exist over the development of the port area owned by Centreport. We look forward to seeing advancement in this issue as we consider that it is important that this area, where major growth area of the city will occur, is subject to design controls consistent with all other parts of the city, and that it is part of an overall integrated vision for the city.

We are raising this issue with you because we want the best outcome for the city in terms of our architecture and built environment. We appreciate that you are considering these issues, and look forward to the outcome of your decision.

Regards

Christine McCarthy
President
